Epidemiology III: Applied Epidemiologic Analysis
Poll Everywhere Instructions

We will be using audience response questions during lecture to encourage participation and to give students an opportunity to participate during lecture. You will receive points for participating and for answering polls correctly. Your responses will count toward 5% of your grade. **First, you will need to register with Poll Everywhere using your Columbia UNI and password**. Your Poll Everywhere account will be linked to your Courseworks gradebook, therefore, your account **must** be associated with your Columbia email.
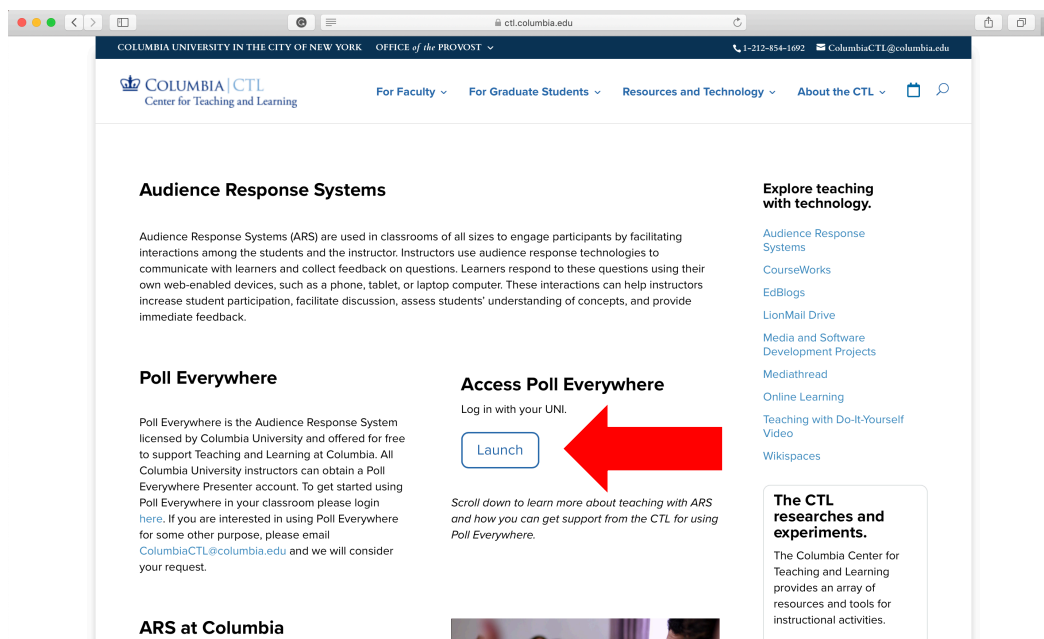

If you already have a Poll Everywhere account, verify that it is associated with one of your Columbia email addresses. If you have an account linked to a non-Columbia email (i.e., Gmail, yahoo, Hotmail, etc.), you will need to create a new account.
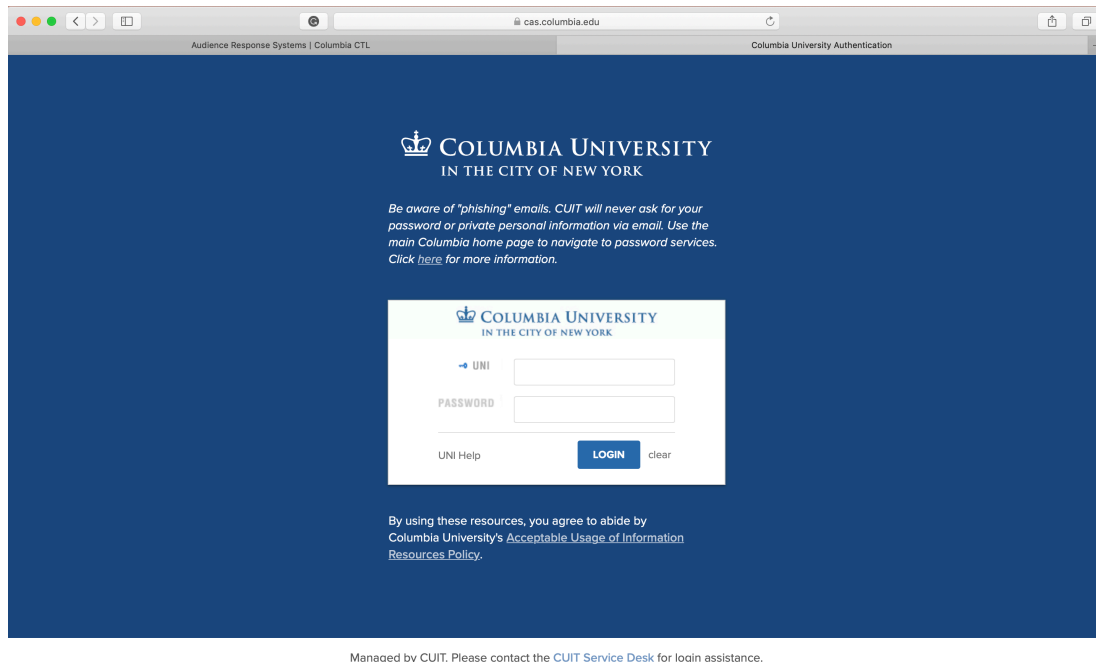

REGISTRATION

1. To register, you will need to use the following link:

   https://ctl.columbia.edu/resources-and-technology/teaching-with-technology/ars/

2. Click on the **'Launch'** button.

3. You will be redirected to the Columbia Authentication page. Enter your Columbia UNI and password, and then click **'Login'**.

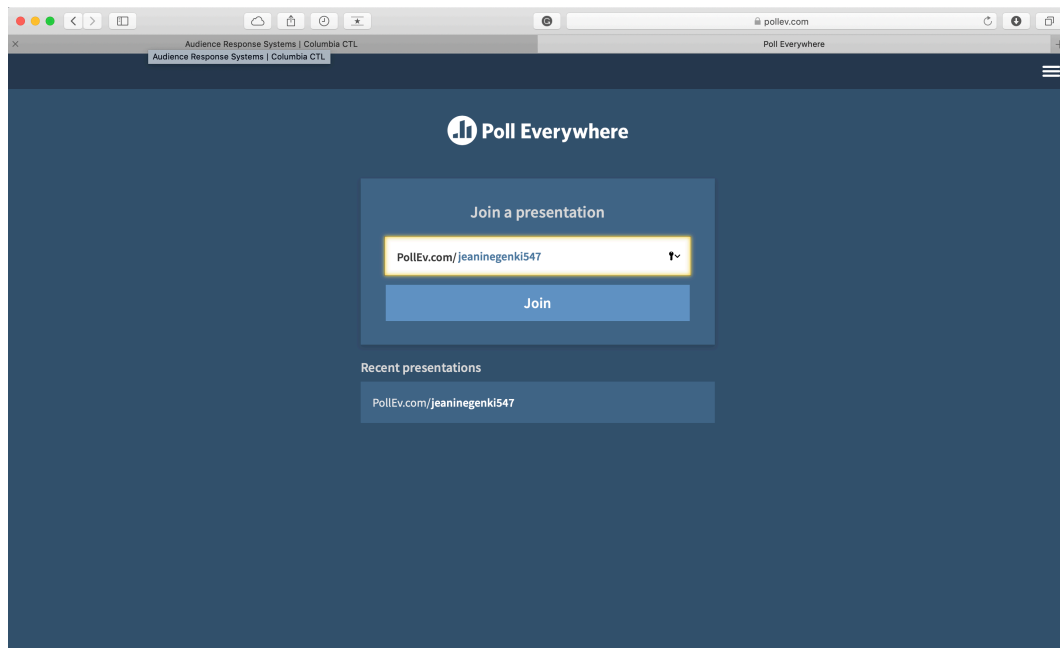

4. Click on the menu button in the upper right-hand corner of the screen. Then click **'Join a presentation'**.

*** Remember which Columbia email appears in the menu bar. It will be your alias@columbia.edu, uni@columbia.edu, or uni@cumc.columbia.edu email address.

5. To join the class Poll Everywhere site, enter **'jeaninegenki547'** and click **'Join'**.

LOGIN INFORMATION BEFORE EACH CLASS

1. To use Poll Everywhere, you can either download the app to your phone or tablet or access it through the following website: https://www.pollev.com/jeaninegenki547. If you would like to use the app on your phone or tablet, please download the app before the first class.

2. Before each class, log in to your Poll Everywhere account using the following link:

   https://www.pollev.com/jeaninegenki547

   Do not wait to log in until the first poll is presented. **You will not have enough time to log in _and_ answer the poll – therefore, you will not receive credit for the poll**.

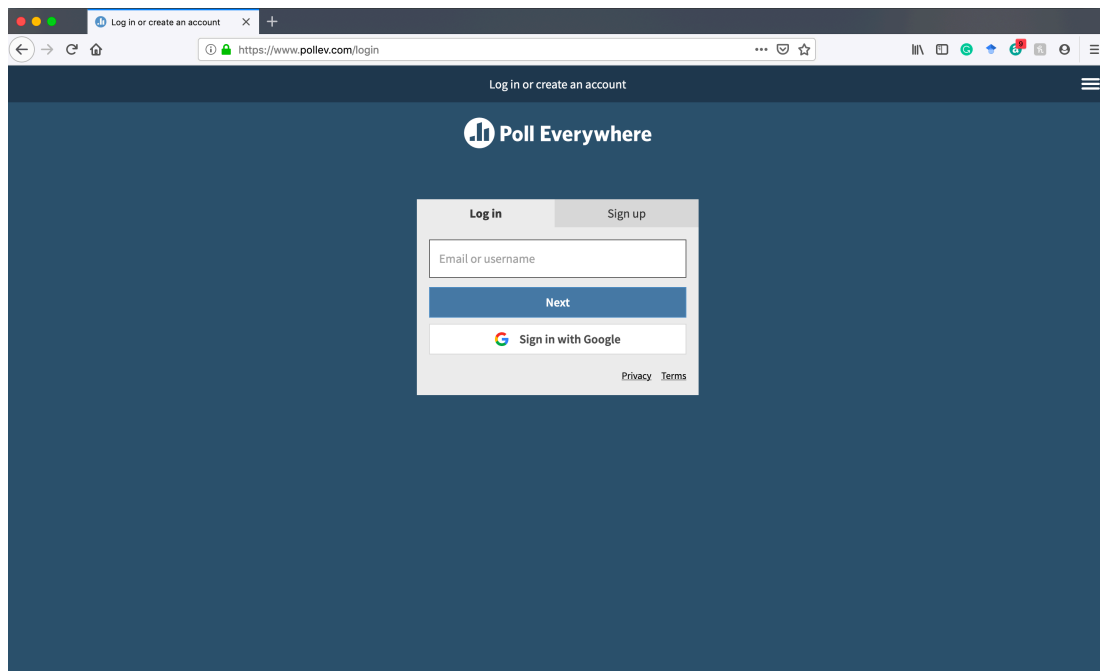

IMPORTANT!!!!

- You can answer polls regardless of whether you are logged in or not. Therefore, once you access the **website, you MUST verify that you are logged in to your Columbia account**. This is important if you plan to use multiple devices to answer polls (i.e., you choose to use your phone one week and then use your computer the next week). If you are not logged in, your responses will not be linked to your Courseworks gradebook.

- Before class, verify you are logged in by clicking the menu button in the upper right-corner of the screen and **make sure your Columbia email appears**.

- If you are not logged in, click the log in button and enter the Columbia email address (*** see note above) that was used when you initially registered for Poll Everywhere using your Columbia credentials. Then click **'Next'**.

*** If you use the incorrect Columbia email, another account will be created and the link with your gradebook will be terminated.

3. Click **'Log in with Columbia'**. Poll Everywhere will redirect you to the Columbia Authentication page where you will need to enter your UNI and password.

If you experience any issues while registering or using Poll Everywhere during class, please email Richard Teran (rat2127@cumc.columbia.edu).
